Despite the pandemic, though there’s a slowdown of financing cycle in the 1<sup>st</sup> half 2021, PT SMI still booked an increase of assets with a significant amount coming from the mandate given by the Government to support the National Economic Recovery Program for Municipal Government. We expect the financing cycle to improve in 2<sup>nd</sup> half of 2021.

Strong asset quality with financing portfolio dominated by entities with low risk profile

Comprehensive Risk Management Policy resulting an NPL net below 1% in the last three years, even during the pandemic.

**Rating History**

APR 2020: uAAA/Stable

APR 2019: uAAA/Stable

APR 2018: uAAA/Stable

**PT Sarana Multi Infrastruktur (Persero) rated "uAAA", outlook stable**

PEFINDO has affirmed its "uAAA" ratings for PT Sarana Multi Infrastruktur (Persero) (SMI) and its outstanding bonds, and affirmed its "uAAA" rating for the Company's outstanding Shelf Registered Sukuk Mudharabah I/2018. The outlook for the corporate rating is "stable". The Company's readiness to repay its maturing bonds and sukuk in July 2021 are supported by its cash and cash equivalents of IDR15.0 trillion as of the end of December 2020 (FY2020), and financing receivable collections of IDR1.2 trillion per month.

An obligor rated "uAAA" has the highest rating assigned by PEFINDO. The obligor's capacity to meet its long-term financial commitment, relative to that of other Indonesian obligors, is superior. The suffix (u) means the rating mandates compliance with Islamic principles.

The rating for the green bonds only reflects SMI's capacity to meet its long-term financial commitments on the debt security, and does not reflect the green certification of the debt security. If the green certification is downgraded, which may trigger the acceleration of the principal payment and/or a step up on the coupon rate of the debt security, PEFINDO will conduct a special review of the rating assigned to SMI and its outstanding debt security.

The corporate rating reflects SMI's status as a critical government-related entity, the high potential demand for infrastructure financing, a very strong capitalization profile, and strong liquidity and financial flexibility indicators. The rating is constrained by its concentrated financing profile and limited number of viable infrastructure projects.

The rating could be lowered if there is a material reduction in support from the government, which may result from a significant deterioration in SMI's business and asset quality profiles.

We expect COVID-19 to have a minimal impact on SMI's credit profile, supported by its strong asset quality with financing portfolio dominated by entities with low risk profile such as large state-owned enterprises, large private institutions and municipalities. We are also of the view that its strong underlying policy and tight monitoring activities should mitigate potential credit risk arising from its debtors amid the pandemic. As of December 31, 2020 SMI recorded low non-performing receivables (NPR, 30 days overdue) at 0.6%, while the portion of its financing receivables entitled for relaxation due to the pandemic was also relatively manageable. PEFINDO will continue to closely monitor these conditions to assess how the impact of COVID-19 is developing, and should there be material alterations we will conduct the necessary rating actions.

SMI is a state-owned entity established to serve as a catalyst in the acceleration of infrastructure development in Indonesia, by providing an alternative source of funds for project financing and promoting public-private partnerships (PPP). It is wholly owned by the government.

PT SMI received idAAA (outlook stable) rating from Pefindo on 12<sup>th</sup> April 2021. Pefindo has also assessed the impact of Covid-19 to PT SMI, and has stated that it will have minimal impact in the infrastructure financing industry.

**RATING ACTION COMMENTARY**

**Fitch Affirms Sarana Multi Infrastruktur at 'BBB'/AAA(idn)'; Outlook Stable**

Fri 23 Apr, 2021 - 7:48 AM ET

Fitch Ratings - Jakarta/Hong Kong - 23 Apr 2021: Fitch Rating has affirmed PT Sarana Multi Infrastruktur (Persero)'s (SMI) Long-Term Foreign- and Local-Currency Issuer Default Ratings (IDR) at 'BBB' and Short-Term Foreign-Currency IDR at 'F2'. Fitch Ratings Indonesia has also affirmed the National Long-Term Rating at 'AAA(idn)'. The Outlook is Stable.

SMI is an Indonesian state-owned enterprise. Its key mission is to support the country's infrastructure development by extending financing to infrastructure projects and providing financial, investment and training advisory services for public-private partnership (PPP) projects.

AAA(idn)' National Ratings denote the highest rating assigned by the agency in our National Rating scale for Indonesia. This rating is assigned to issuers or obligations with the lowest expectation of default risk relative to all other issuers or obligations in the same country.

PT SMI received BBB international rating and AAA(idn) (outlook stable) from Fitch Ratings on 23<sup>rd</sup> April 2021, consistent with the previous period. Fitch classifies SMI as a government-related entity (GRE) that is credit linked to the Indonesia sovereign.

## Financial Highlights - Profitability
